Dear [REDACTED]

Thank you for your email regarding Frontex's activities in Albania.

I would like to clarify that Frontex is not involved in operations at the Shëngjin centre. As you rightly point out, Frontex's activities are governed by Regulation (EU) 2019/1896 and we strictly adhere to the tasks set out within it.

Shëngjin centre is specifically intended for secondary movements, which falls beyond Frontex's mandate. I can therefore assure you, that Frontex has neither planned nor implemented any migration management activities at this location.

We are at your disposal to provide further clarification if you have further questions.

Kind regards,

[REDACTED]

Beste Directeur Leijtens,  
Beste Hans,

I'll be continuing in English in order to enhance accessibility of the email for your staff in case needed.

On the basis of Regulation (EU) 2019/1896, Article 106 (2), I would like to pose a question regarding Frontex operations in Albania.

In statements made by the Agency in private meetings during the EP consent process of the renewed Frontex Status Agreement with Albania, the Agency stated that it would not be involved in the implementation of the Italy-Albania migration deal, and would solely focus its activities on the border areas of Albania. However, in a [recent journalistic publication](#), it was claimed that Frontex is foreseen to execute activities in the Shëngjin centre, and would have at its disposal an office in that facility, which is built for the execution of the aforementioned Italy-Albania deal.

I would be grateful if you could clarify the above and confirm if any activity in Shëngjin is foreseen to take place, and if so, how the fundamental rights impact of the Italy/Albania deal has been considered and what is Frontex' assessment thereof.

Thank you in advance.

Kind Regards.
